usb lanyard

usb

double layer satin

single layer

embroidered

recycled materials

BENEFITS

Seeing that lanyards are used for promotional purposes, buildmylanyard.com developed another way for firms and organizations to promote their brands and opportunities. We feel our USB lanyard provides the best value for the bulk lanyard purchaser looking to get repeat use of their promotion product. Not only this, but with our pre-load offering we can load any information you would like onto these USBs to save printing costs, and to extend your point of contact with your target audience. Conferences are seeing a great benefit from this product as we are able to cut down many redundant printing and time costs they incur in the organization of their events. This product is also great for internal corporate use by employees. By selecting our free pre-loading option, you can share relevant information with your audience through a digital platform which also serves as an environmentally friendly initiative.

SPECIFICATIONS

The USB sizes come in the 128MB - 4GB capacity with only a 1% to 2% fault rate. The lanyard width on the USB buckles is 2.5 cm which is a great size, achieving higher promotional exposure than the standard 2 cm widths. The basic lanyard material we offer with this USB buckle is the Double Layer Satin, however, they can be made from any type, including our Recycled Material, Embroidered, or just Single Layer Polyester Material

PRICES

The prices shown below are a rough estimate for a range of order sizes. Let us know exactly how many you need and we can give you an exact figure.

250	1000	5000	10000
\$12.30	\$9.75	\$7.65	\$6.70

also depends on what size USB is ordered

BENEFITS

The benefits for the Double Layer Satin lanyard are simple. It is a cost effective means to drastically improve the perceived value of your lanyard, and to provide it with that added touch of professionalism. This lanyard is most popular with our conference and school clients because of this reason. We get so much interest in this type of lanyard that we decided to make it standard on all USB lanyard orders! If you are looking for a beautiful looking lanyard that doesn't empty your pockets, consider this product.

double layer satin

SPECIFICATIONS

The Double Layer Satin Lanyard is made up of a polyester layer, with a satin layer stitched over it. The dimensions of each layer's width is completely customizable with the standard base polyester layer being 2 cm. As with all of our lanyards, we can do a 2.5 cm width as well as a 3 cm width on this type. We are even able to provide this type of lanyard as a triple layered product, stitching satin layers to both sides of the polyester base. Double sided printing is also available.

single layer

embroidered

recycled materials

BENEFITS

The Single Layer Lanyard is the most commonly found lanyard. Though this fact may play towards a disadvantage in a market where uniqueness and quality are major drivers, it speaks to the lanyards ability to provide you and your organization with the exposure you need during and sometime after the point of contact. This lanyard is the most cost effective way of doing that. The no frills nature allows you to provide this lanyard for its basic ID badge purpose at a specific one or two day event. We would not recommend this lanyard to schools or companies seeing that it has a low perceived quality and would not achieve extended exposure.

> single lanyard

SPECIFICATIONS

This lanyard is printed on using screen printing as standard, however, we can offer prints to be dyed into this lanyard achieving a more permanent and professional look and feel to the piece. The standard width of this lanyard is 2 cm, however, as with all aspects of our lanyard this is completely customizable and we can do other sizes for you in according with your preference.

BENEFITS

A major problem that many organizations face when giving away promotional items or trying to gain awareness for their brand is the difficulty in seizing their audiences attention over a period of time. We believe our Embroidered Lanyard addresses this problem. By investing a small additional amount into each lanyard you can offer your audience the highest quality lanyard available in the market. This embroidered lanyard is a huge hit among anyone that uses them because of their unsurpassed durability and its look of sheer professionalism. Our market research has shown us that the higher the quality of the lanyard the longer the user will keep the lanyard and be exposed to your brand and message.

BENEFITS

With more and more people in today's world becoming conscious to environmental and resource issues we felt it was appropriate to offer a lanyard made from recycled material. These lanyards have gained in popularity very quickly and we do our part but pushing these lanyards as much as possible. They also make a perfect compliment to a USB lanyard seeing the printing cost savings and environmentally friendly nature of pre-loading files. It lets your audience know that your organization also understand global concerns and addresses them whenever appropriate. Not only this, but we have also seen is become a conversation piece between peers enhancing the brand equity of the organization for which it was produced for. This eco-friendly lanyard is the perfect piece to promote your brand especially if your demographic consists of a younger and trendier generation. For this demographic where it seems that fashions and trends switch each and every season, "green" continues to prove it will not go out of style. Seeing the demand for this product and buildmylanyard.com's commitment to its triple bottom line strategy, we are currently in the process of designing a biodegradable lanyard.

our green initiative

SPECIFICATIONS

As with all our lanyard they come in 2 cm, 2.5 cm and 3cm widths, with the 2 cm width being standard. The lanyard also comes in several options. We can provide lanyards made from recycled plastic, cocoa bean waste, corn waste, kevlar waste, and bamboo. Each material has a different price point, but they generally do not vary by much. Don't let the different materials fools you, thee lanyards look and feel great and might leave you pleasantly surprised.

“I WOULD RECOMMEND THEM TO ANYONE”

“Buildmylanyard.com was a pleasure to do business with. They understood that was important for my movie release and are supplying us with great looking USB lanyards. Their value added service of pre-loading files was the cherry on top. I would recommend them to anyone looking for professional looking and multipurpose lanyards.”

Filmmaker - My Date with Hugh

“WE’LL BE PLACING ANOTHER ORDER”

“BuildMyLanyard.com provided us with gorgeous embroidered lanyards for our Theta Eta chapter. When we brought them to our yearly sorority conference it turned out that all of the other girls in the Alpha Phi sorority wanted them for next year too. We’ll be placing another order for next years conference for all the chapters!”

“UNDERSTOOD WHAT I WAS LOOKING FOR”

“Buildmylanyard.com understood what I was looking for and supplied me with exactly what I needed. They didn’t try to up-sell me or hassel me with other options or accessories. The lanyards they made for me were a big hit at our Behavioural Finance Conference and many of the attendees claimed that they were the highest quality they had ever seen. After the conference I even started using my lanyard for everyday use.”

“COMMITMENT TO HIGH QUALITY”

“The team at BuildMyLanyard.com were a pleasure to work with for TEDxWaterloo. We would highly recommend them as the official supplier of lanyards for other TEDx events around the world, given their commitment to high quality, environmentally-conscious products and excellent customer service. We look forward to fostering this relationship between TEDxWaterloo and BuildMyLanyard.com in the years to come.”
